In the event that a scheduled location is unavailable at time of post, a mutually acceptable alternative may be substituted.

Locations post throughout the scheduled posting week.

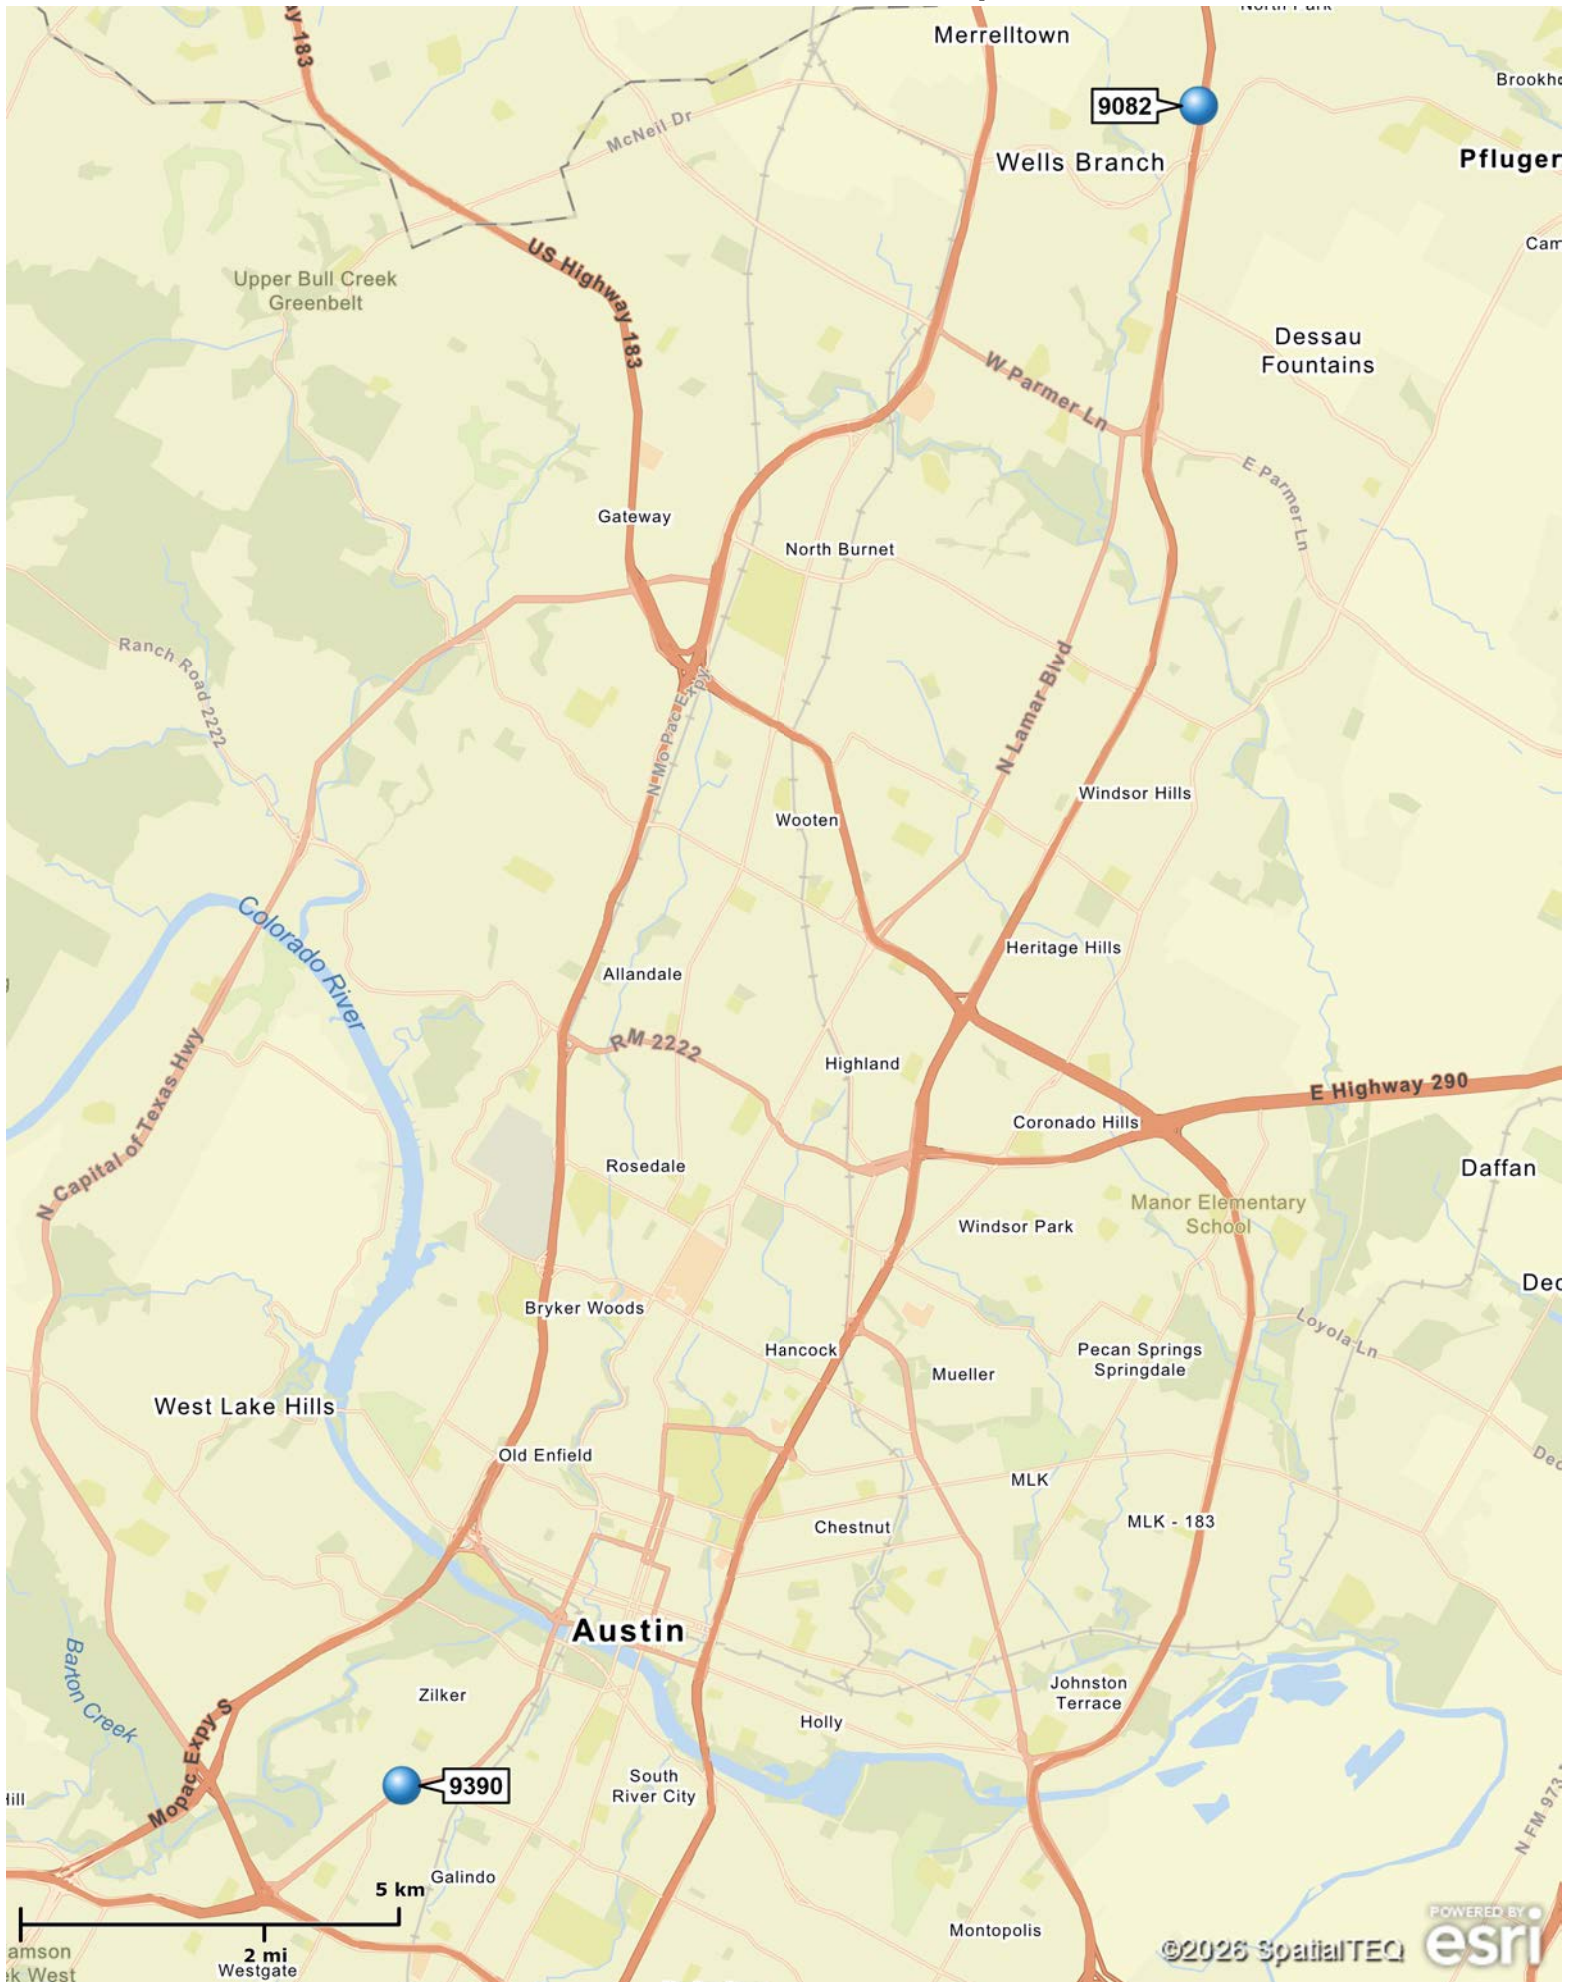

"We've found that the new 2025 numbers are **not** an apples-to-apples comparison with the prior data release. If a panel's impression count changed, our reviews indicate that it's due to a more precise measurement approach, not an actual shift in traffic. Geopath has upgraded their roadway/ mapping network to incorporate new and changed roadways that impact travel patterns. There's also added precision in determining pedestrian and vehicular traffic, in some cases reducing vehicular traffic/ roadway traffic in prior releases." Interim President of Geopath, Rob Peterson
